HALO WARS

Re you one of the many *Halo* fans who picked up *Halo Wars* thinking it was another FPS (first-person shooter) game, only to come home and realize that it's actually an RTS (real-time strategy) game? Don't let it sit on your shelf and collect dust; there are many precious *Halo* Achievements to unlock and we'll show you how to get them. *Halo Wars* also takes you deeper into the *Halo* universe with its fascinating epic chronology and compendium of other-worldly technologies—it's a must for any *Halo* fanatic!

CAMPAGN MODE

There is a secret Black Box, Skull and Xbox 360 Achievement in each of the 15 missions in the game. The best approach to getting these extras is to go back and replay each mission. Completed missions can be selected from the Missions menu. Remember, once you've earned a Skull, Black Box or Achievement, you can quit out of the mission (Resign) and it will still be saved and noted in your Service Record; you will not have to finish the mission to get credit for the objective, since you already completed it earlier. Another reason to tackle these sub-objectives the second time through is because some of them can be time-consuming, so they may affect your overall mission score. The following guide will focus on the Campaign mode at the Normal difficulty setting.

Skulls—The Skull for each level will only appear after the optional kill objective is met. As soon as you complete the objective, the mini-map will briefly indicate the location of the Skull with a flashing circle, but only for a few seconds. The Skull will remain there until a unit is instructed to retrieve it. Like the regular *Halo* games, Skulls can be used to activate various cheats that can either help or hurt your game.

Black Boxes—Black boxes reveal more information in the *Halo* timeline. Unlike the Skulls, the boxes will always reappear each time you play, even if you've already collected them earlier.

Xbox 360 Achievements—Each mission has an optional objective which rewards you with a special mission-specific Achievement. Some of these can be quite hard to earn, but you have the option of setting the game to a lower difficulty level and it will still count. Achievements are also unlocked after you've finished an Act (every three or four missions).

MISSION 01—ALPHA BASE

Your Warthogs and foot soldiers will eventually reach the barrier at Alpha base. Only your infantry can cross the barrier and destroy the generator on the

other side. Once the barrier comes down, the Warthogs can rejoin the troops for the final battle. This is a good place to learn how to select specific units. It's tempting to use the All Units command (LB) to move all of your troops at once, but the sooner you get the hang of advanced troop movement, the easier the game will be. Try switching your habits to using the Local Units command (RB) and learn to use the unit selection menu to your advantage (RB + Y button to scroll). Also, if you hold down the A button, you can bring up a cursor that allows you to select multiple units; this is useful when you need to make quick movement decisions. You will unlock the Meet Sergeant Forge Achievement after completing this mission.

Achievement: Everything's Better With Bacon

Objective: RAM 50 GRUNTS WITH WARTHOGS

The Warthog's ramming ability (Y button) needs to be recharged after every use, so this can be a tough Achievement to earn. The gunner on the back of your Warthog will continually try to shoot the enemies dead, so drive away and come back when your ram ability is recharged. This Achievement is actually easier at the higher difficulty settings—the enemies won't go down easily with just gunfire, so you'll have more time to run them over.

Skull: Look Daddy!

After completing the objective, the Skull will appear in the far west portion of the map; look for it in the cove just outside the entrance to Alpha base where you lowered the barrier.

Usually the 100th kill comes at the very tail end of the mission, so make sure you have a unit camped out there to snag the Skull before the "Mission Complete" message appears! Sometimes you may come up short at the end of the mission (e.g. 97, 98 Grunts). This means that Cutter's Carpet Bomb robbed some of your kills toward the end, so take out as many as you can with your squad before he radios in. You will also unlock the Alas, Poor Andrew Thomas Achievement for getting your first Skull. **Cheat effect:** When a Grunt dies, its methane tank always shoots off.

Black Box 1

Just after you cross the last bridge (to the barrier area), you'll see a ramp sloping downward on the left side. Send a unit down and grab the box under the bridge.

DATE: 4 FEBRUARY 2531

MISSION 02 - RELIC APPROACH

It's all about gaining supplies quickly in RTS games, so instruct your troops to collect

the supply crates on the ground while you build up the base. There is a huge stash behind the base up on a ledge; send Forge and his speedy Warthog to retrieve those. Once the base is upgraded and you have a squad of Marines, the lockdown will be lifted. Quickly build turrets on all four corners of the base to defend against enemy dropships. Once you feel you've built up a solid scouting crew, send them out into the field and engage the enemy. A Covenant base is being built up directly ahead. Instead of taking on the base right away, head west to free the soldiers and Warthog units trapped on the landing pad and behind the two barriers. This will bolster your squad and give you more firepower against the Covenant base.

Send in All Units at the Covenant base to demolish it. If you were quick enough in amass-

ing your units, the enemy base will only be partially constructed. Once the base is destroyed, you will be able to set up a second Firebase. By this point, you should have enough Reactors burning to have the Tech level to build a few Scorpion tanks. You may also want to free the remaining Warthogs on the east side of the map before pushing through the final area to the Detonator.

Achievement: Endless Fun

OBJECTIVE: DESTROY EVERY METHANE TANK

The Methane Refinery is in the Northwest, near the barriers where the Warthogs are trapped. Destroying the structure in this area will also stop dropships from attacking your base.

Skull: Grunt Birthday Party **OBJECTIVE:** KILL 20 JACKAL SNIPERS

The Jackals can be easily found camping out on sniper pods throughout the level. Once you achieve this goal, the Skull will appear just below your first base in the southern part of the enclosure. Send a unit back to the base or create a new unit right there to retrieve it.

Cheat effect: Grunts explode into confetti.

Black Box 2

The second black box can be found behind the barrier in the northwest. Jackal Snipers will attack as soon as you retrieve it, so be ready.

DATE: 7 FEBRUARY 2551

MISSION 03 - RELIC INTERIOR

You'll be pretty much unstoppable with two Grizzly units, but don't get too caught up with the enemies here—they will continually

re-spawn. Your goal is to get to the north point and rescue Forge and Anders as quickly as possible. Once you reach the stranded team, you can instruct Anders to repair your damaged Grizzlies. Cover Anders while she hacks the bridge controls. As you approach the landing zone area, Hunters will block your path; have the tanks take them out and instruct Forge and Anders to make a run for the landing zone. You will get the Ice Warriors Achievement for completing Act 1.

Achievement: Covenant "Hot Drop"

OBJECTIVE: KILL AT LEAST FIVE COVENANT UNITS WITH THE BRIDGE

After Anders hacks the bridge, anybody can operate it if they're close enough to the controls. Lure a group of enemies onto the bridge and use the controls to drop them into the abyss! Your own units will automatically step off the bridge when you use the controls, so don't worry about losing them. After five enemy unit drops, you will receive the unlock message.

continued

MISSION 03 - RELIC INTERIOR continued

Skull: Cowbell

Most of the Hunters will appear at the tail end when you're going up the ramp to the landing zone. They will continually spawn here, so there's no fear of achieving the kill count...but they're relatively tough opponents. The Skull will appear far north on the circular platform where you rescued Anders and Forge. The best thing to do is to leave a unit here when you make the rescue. Make sure the soldiers occupy a sniper pod so they can defend themselves until the Skull appears.

Cheat effect: Destruction physics magnified.

OBJECTIVE: KILL 45 HUNTERS

Black Box 3

MESSAGE FROM THE OFFICE OF THE HIGH PROPHET OF REGRET

This box is well past the landing zone and to the right down a rocky path.

The trick is to keep Forge and Anders away from the landing zone (so they don't end the mission) while you send a Grizzly down to retrieve it.

MISSION 04 - ARCADIA CITY

Follow the blue arrow and quickly clear out the subway area to rescue the civilians. Transport 3 will eventually call for help; you can choose to help them, but they will be destroyed no matter what you do. After the crash, you will be given two locations to set up bases. It is highly advisable to set up a base in the middle grassy courtyard area; the paved area in the northwest is near a very powerful Covenant base, making it extremely difficult to protect. As you build up your base, focus on constructing an Air Pad so you can train more Hornets. You will be continually moving back and forth to protect the two remaining transport ships, so air units are ideal for this map. Don't forget to use the healing powers of the Spirit of Fire (Up on the D-pad) to keep Forge alive. Also, try upgrading your base with Flame Mortar Turrets—these are very effective against enemy infantry attacks. You may even lose another transport ship, but if you can manage to keep the last one intact before the launch count hits zero, you will complete the mission.

Achievement: The Real Winner

Just north of the start point, you will see the Black Box sitting on the steps. When you approach this area, you will hear someone's mother say, "Have you seen my Son? Adam!" Highlight the console near the double doors and free Adam. He'll make a run to Transport 2. Escort the boy and make sure you kill any enemies in his path (if he takes just one shot from an enemy, he'll be dead).

OBJECTIVE: SAVE ADAM

Skull: Wuv Woo

This goal is automatically counted when 500 or more civilians make it into any remaining transport ships. The ship does not actually have to take off; if a ship is destroyed after 500 people make it in, the Skull will not disappear. The Skull will appear in the east, past the statue and nestled within the palm trees.

OBJECTIVE: RESCUE 500 CIVILIANS

Cheat effect: Scarabs shoot Rainbow beams made of pure love.

Black Box 4

DATE: 20 JULY 2520

This black box can be easily found on the steps just north of the starting point.

MISSION 05—ARCADIA OUTSKIRTS

As soon as the mission starts, keep moving south and don't engage the enemy that's

chasing you down. Along the way, a single Reactor can be seen on the left. Send in a unit to occupy the Reactor and you will see your Tech level automatically reach "1"—this will give you a head start when assembling your base. As you construct the base, gather any crates you see. The enemy will be setting up a Mega-Turret in the southwest. The key is to assemble a big enough squad to destroy the turret before it reaches completion. Once it's built, it will be difficult to take it down without suffering mass casualties. Once the turret is down, you can set up a second base. Keep your first base protected by setting up soldiers at the cover points and upgrading the turrets to Flame Mortars and Rail Guns.

As you create your second base, build up your war machine as well, with two bases churning

out units. Make sure you have plenty of infantry, Warthogs and up to a few Scorpion tanks. Keep defending this area until Serena radios in the Omega Squad. Now you'll be able to take down the Covenant base with ease. Don't forget that you can use the Spirit of Fire's MAC Blast to speed up the job.

Achievement: He's Got the Jack

OBJECTIVE: JACK SIX COVENANT VEHICLES

Spartans can jack vehicles: Simply select a Spartan, then press Y over any vehicle you wish to enter. This can turn the tide of any battle instantly. If you're going for the Fog Skull, however, you will need to attempt this Achievement on another replay, since you cannot destroy Wraiths and hope to jack them at the same time!

Skull: Fog

This sub-objective comes naturally as you work to complete the mission (as long as you're not attempting the Jack Achievement). The Skull will appear in the far west portion

of the map. It will be sitting on the freeway near a couple of tall buildings. Send in a Warthog or Hornet to go retrieve it.

Cheat effect: No mini-map. Final score will increase.

MISSION 06—DOME OF LIGHT

For this mission, you will need to set up Rhinos at five different positions on the map. The first order of business is to build up your base, increase your supplies and boost your ground forces (you won't need air units for this battle). Note that there are two extra Reactors you can occupy to automatically boost your Tech

level to "2": one just behind your base, and another to the northeast. Use the communications tower to the right of the base to call in a Rhino when you have enough expenses to spare. Drive the Rhino to Position 1, just north of the base indicated by the arrow. It will lock itself down and establish its firing position. To set up the second Rhino position (you can only call in one free-roaming Rhino at a time), you will need to have a big enough squad to destroy the two Covenant buildings that are spawning enemies. Remember that you can put your Spartans into any vehicles to make them stronger. In fact, a vehicle is like a second coating of armor for Spartans, since they can continue to fight long after their ride is destroyed (unlike regular units).

For the third Rhino, you will need to use a Pelican to transport the vehicle by air to its lock-down position (the bridge to the east is damaged). Simply press Up on the D-pad to bring up the Spirit of Fire menu and choose the Pelican. Put the target on the Rhino and select the lock-down position for its landing spot. You may need to send a few Warthogs along to help clear out that area (and grab the Black Box). When the three Rhinos are set, a cutscene will play.

continued

MISSION 06—DOME OF LIGHT continued

By this point, you should have amassed quite a large force to clear out the last two Rhino positions with relative ease. When all five Rhinos are in place, it's time to have fun with the MAC Cannon. Destroy every Covenant structure on the screen.

Achievement: Rhino Hugger

OBJECTIVE: SUCCESSFULLY PROTECT EVERY RHINO
This is easy to achieve at the Normal difficulty setting, since the Rhinos can take quite a lot of damage. You can always leave a few units around the Rhinos if you want added insurance.

Skull: Sickness

OBJECTIVE: KILL 50 BANSHEES

This is also easily achieved during the course of the mission. The Skull will appear behind the base, inside the garage/hangar opening.

Cheat effect: All players have 50% fewer hit points.
Final score will increase.

MISSION 07—SCARAB

The basic objective to this one is simple: Build your base, amass units and go take down the Scarab. There are seven Power Nodes scattered around the field. By destroying each node, you will slow down the head of the Scarab incrementally. Each node is heavily protected by Covenant forces, so approach them with caution. Note that the Scarab will be firing its laser the whole time; stay behind the cover points, but not for too long since they can be destroyed. Even a Scorpion tank can crumble into a pile of ashes with one lick from the Scarab laser, so stay alert! Your Rhinos are too slow to be roaming around the open field in this mission, so it's best to have them locked down (Y button) near your base as a defensive measure. Keep your fleet swift with mostly Gauss-upgraded Warthogs and Wolverines with the Lob ability (to attack ground forces). Once you've destroyed around five Power nodes, it should be fairly easy to take down the Scarab at Normal difficulty. Just make sure you move your forces out of the way when it starts to move its head. Don't forget that you can call in a MAC Blast from the Spirit of Fire to throw down more damage. You will receive the Key to Pirth Achievement for completing Act II.

Achievement: Micro Manager

OBJECTIVE: DO NOT DESTROY ANY POWER NODES

What this really means is that you need to defeat the Scarab without destroying any nodes...which is really hard to do! This is one goal which should be tackled at the Easy difficulty, and even then it can be pretty challenging.

Skull: Rebel Sympathizer

OBJECTIVE: Kill 10 Locusts

This is pretty easy to accomplish, since the Locusts are protecting the nodes that you are trying to destroy. The Skull will appear in the far northwest corner of the map where a Power Node is sitting on the ledge (and being protected by a Locust).
Cheat effect: Non-player units get 25% more hit points.
Final score will increase.

Black Box 7

This box sits in the far northeast, inside the little cove filled with many supply crates. You'll be safe from the Scarab's blasts here, so take your time and collect everything.

DATE: 9 FEBRUARY 2531

MISSION 08—ANDERS' SIGNAL

phant is basically a mobile mini-base that allows you to train troops. Start churning out a huge squad of Marines with a few Flamethrower units thrown in. Move your Global Rally Point behind the Elephant to keep your freshly made infantry troops protected. You will be raided by Brutal Choppers, but multiple grenades can take care of them instantly. Try to coax enemies behind the rock shelter and stay conservative with a hit-and-retreat tactic; an all-out assault would be sure death here. If you keep up with attacks on the enemy front lines, Spartans should come to the rescue about five or six minutes into the mission.

flare beacon. Start heading southwest towards Echo squad, but make sure you put your Elephant on lock-down again in a safe area (as long as it's close enough to churn out reinforcements for your next battle). At this point, Flamethrower units will be your best bet against the Flood, so start building up a giant squad of torches. Move your squad to the upper cliff and rescue the ODST units, then immediately destroy the Flood Launcher before any more of your units become infected. Use your Spartans to free the Elephant from the Flood tentacles. Bring both Elephants back to the beacon area and you will be able to build a Fire Base.

At the start of the mission, immediately put the Elephant on lock-down (Y button). The Ele-

phant is basically a mobile mini-base that allows you to train troops. Start churning out a huge squad of Marines with a few Flamethrower units thrown in. Move your Global Rally Point behind the Elephant to keep your freshly made infantry troops protected. You will be raided by Brutal Choppers, but multiple grenades can take care of them instantly. Try to coax enemies behind the rock shelter and stay conservative with a hit-and-retreat tactic; an all-out assault would be sure death here. If you keep up with attacks on the enemy front lines, Spartans should come to the rescue about five or six minutes into the mission.

Focus on creating a huge ground force with Flamethrowers and Warthogs.

Keep the Elephants safe and locked down near the base. Have them churn out infantry units so you don't have to build Barracks. Build Fire Mortar Turrets and keep Flamethrower units around to keep the base protected. You can go around and rescue the stranded ODST units if you wish—they are easy to find on the map, since they're surrounded by Flood Dens. With your massive ground force, it should be pretty easy to overwhelm the Flood and save India Squad to finish this mission.

Achievement: Ramblin' Man

OBJECTIVE: USE ELEPHANTS TO TRAIN 100 INFANTRY

Again, instead of creating Barracks after you establish the base, use the Elephants to train more infantry. You may need to build a Field Armory to increase the size of your troop capacity or deliberately lose a lot of troops to the Flood so you can create more.

Skull: Rebel Supporter

OBJECTIVE: KILL 750 INFECTED FORMS

You may need to do some scouting to find more Flood Dens and Nests on the map (other than the ones near Echo and India). This

can generally be achieved if you end up rescuing all four ODST units around the map. Of course, you can always infect your own troops to create more enemies if you wish! The Skull appears way up north along a narrow, rocky road that starts near the area where you rescue the ODST units. Use a single Warthog to retrieve it, since it's out of the way.

Cheat effect: Non-player units do 50% more damage. Final score will increase.

Black Box 8

DATE: 10 FEBRUARY 2531

This box can be retrieved soon after the Spartans rescue Forge and you both clear the area. It's in the east side of the map, sitting on a ledge surrounded by dead trees. There is a Flood Den nearby, so you may want to send in more than one unit to retrieve it.

MISSION 09 - THE FLOOD

Air Pad). Fly them over to the star mark on the map and immediately rescue the Spartans. Meanwhile, keep churning out Hornets from the base; infantry units are pretty much useless here, since they can get easily infected. Throw your Spartans into the Hornets for added power.

will weaken the main Flood Boss (The Hive). The catch, however, is that you can't completely destroy a Colony. You can only keep it dormant; eventually they will reawaken and re-energize the boss. Fortunately, with Hornets you can fly around the map easily and keep the Colonies suppressed. Three dormant Colonies are sufficient for taking down the main Hive in Normal mode. Using the Carpet Bomb command will also make this task easier.

Don't waste any time creating a sizable fleet of Hornets (you'll need two Reactors and an

Similar to the Scarab and the nodes, destroying each of the five Flood Colonies

Achievement: Sweet Naptme

OBJECTIVE: PUT EVERY COLONY IN HIBERNATION MODE AT THE SAME TIME Again, this is a fairly easy goal to achieve when you have a fleet of fast Hornets. You only need to accomplish this once; it's OK if any of the five Colonies reawaken before you attack the Hive.

Skull: Rebel Leader

Flood Stalks are easy to locate and kill, but they detonate upon death, infecting infantry or destroying vehicles that are close by. Use Hornets to take them out by air.

The Skull will appear just northeast of the base, near the place where you found supply crates at the start.

OBJECTIVE: KILL 20 FLOOD STALKS

Cheat effect: Non-player units start with extra veterancy. Final score will increase.

Black Box 9

DATE: 6 FEBRUARY 2521

MISSION 10 - SHIELD WORLD

stroy any aircraft in this level, so stick to vehicle production only. Scorpions with the upgraded Canister ability are the most effective here. Claim the Reactor just north of the base (use an infantry, since they'll get infected on the battlefield anyway). Keep your base protected with Missile Launcher Turrets, since the skies are filled with the Flood Swarm. As you clear the area out for Alpha team, the Spirit of Fire will drop a Gremlin to be used against the Pylon. There are four Pyramids in this level; destroying each one will add more time to the evacuation countdown (thus giving you more time for the mission). Unfortunately, once a Gremlin discharges an electromagnetic pulse, it will become inoperable. Rescue Bravo squad, then finally rescue the Spartans. Lead all of them back to the base and this mission will be over.

You'll have just over 17 minutes before evacuation. Unlike the previous mission, Flood Launchers will de-

Skull: Catch

This will usually happen naturally over the course of the mission, especially if you have Missile Launcher Turrets mounted on your base. However, you will need to create an air unit to retrieve this Skull, since it sits on an island in the east, just between the two Reactors. A Flood Launcher is in this area, so you'll want to get in and get out!

Cheat effect: All player units recharge unit abilities in half the time. Final score will decrease.

Black Box 10

The Black Box is behind Bravo team in the northwest. You can find it among the crates in the back.

DATE: 14 FEBRUARY 2521

Achievement: The Procrastinator

OBJECTIVE: DISRUPT ALL TRACTOR BEAMS

This happens automatically when you disable all four Pyramids by discharging your Gremlins.

MISSION 11 - CLEANSING

There are hardly any supplies here...and you can't make supply pads, so this mission can be slow.

going. Train as many Hornet and Flamethrower units as you can from out of the airlock units. Turret building and upgrading are also critical to this mission's success. The Hornets will be required to destroy the Flood Dens and Nests on the outer edges of the ship, since the infantry will not be able to step out there. Every few minutes, a giant "cleansing" ring will come passing through, damaging everything in its way. Keep an eye on the Next Ring Pass counter and make sure you have your infantry locked into the airlock before it arrives or you will suffer casualties. You can protect your Hornets by flying against the passing ring and the damage will be minimal. When all the red marks on the map are cleared, you will receive the **Ugly Is Only Skin Deep** Achievement for completing Act III.

Achievement: Battered Down the Hatches

OBJECTIVE: SAVE ALL THE AIRLOCKS

Make sure you have every turret up and running at all times. If any of the airlocks are on the brink of being destroyed, send in several units and keep them protected. Unfortunately, none of the airlocks can be repaired by the Spirit of Fire.

Skull: Sugar Cookies

If all of your turrets are upgraded to Missile Launchers, then this should be fairly easy. You will still need to do a lot of active Sentinel hunting toward the end of the mission. Remember, you can shoot them down at the start of the mission before they turn on you (before you are identified as hostile organic matter). The Skull will appear way out at the nose of the ship in the northeast. You will need a Hornet, since it will be floating in mid-air.

Cheat effect: All player units have 50% more hit points. Final score will decrease.

MISSION 12 - REPAIRS

Immediately get the Cyclopes busy repairing the Core. Since this is a Covenant raid and not the Flood, churn out a bunch of Marines instead of Flamethrowers. Like the previous mission, turrets can go a long way in assisting your forces. As long as you keep creating Cyclopes and have them repairing the Core uninterrupted, this mission should be fairly easy. You may need to help them fend off enemies every now and then. You can also use your healing powers on the Core to speed up the process. Once the Core is 100% repaired, the mission is over.

Achievement: Handy With Tools

OBJECTIVE: REPAIR THE POWER CORE IN LESS THAN FOUR MINUTES

This goal can be easily accomplished at the lower difficulty levels, especially when you have enough Cyclopes and help from the Spirit of Fire's healing and repair powers.

Black Box 11

EDICT OF THE OFFICE OF THE HIGH PROPHET OF TOLERANCE

The box is to the west on the outer edge portion of the ship. You will need a Hornet to reach it.

Skull: Boomstick

Spirit Transporters take a lot of damage from Missile Launcher Turrets, but you will need to finish them off with ground forces before they drop off enemies and fly away. Fortunately there are plenty to destroy in this mission. The Skull can be spotted easily on the upper deck of the ship toward the northeast.

Cheat effect: 5% chance any non-player unit blows up upon death with explosive area damage. Final score will decrease.

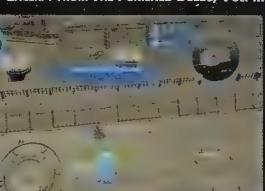

Black Box 12

This box sits towards the west edge of the ship. You will need an air unit to retrieve it.

EXCERPT FROM THE PUNISHED DEEDS, VOL. III

MISSION III - BENCHHEAD

Escort Anders and take your ragtag team to the teleport pad. Defend the LZ before the Pelican arrives. Once Anders is safe, three Spartans will join your squad (with a dramatic entrance). Ranjack the Covenant base up ahead. Use a Spartan to Jack a Locust if you wish. You will be able to establish a base once this area is cleared. Capture the supply tower near the base for more resources. Gear up with both land and air units (infantry is not necessary), take down the second Covenant base in the center of the map and establish a second Fire Base. Keep beefing up your forces with upgrades and Field Armory enhancements.

If you take the southeastern bridge from your second base, you will find a Scarab caught in Flood tentacles. Free the Scarab and jack it with a Spartan—now you'll be virtually unstoppable! If you do this, you should have no problems taking down the third shielded Covenant base. Take your units through the teleport pad in the northeast and head to the last base. By now you should have enough resources to upgrade all the turrets at your bases to "Large," making them impenetrable. Move all your units to the last base. If you manage to jack another Scarab on the ramp, you can disintegrate the final base in seconds!

Escort Anders and take your ragtag team to the teleport pad. Defend the LZ before the Pelican arrives.

Once Anders is safe, three Spartans will join your squad (with a dramatic entrance). Ranjack the Covenant base up ahead. Use a Spartan to Jack a Locust if you wish. You will be able to establish a base once this area is cleared. Capture the supply tower near the base for more resources. Gear up with both land and air units (infantry is not necessary), take down the second Covenant base in the center of the map and establish a second Fire Base. Keep beefing up your forces with upgrades and Field Armory enhancements.

Achievement: Beaming With Pride

OBJECTIVE: DESTROY 25 UNITS WITH THE SCARAB
25 units is a drop in the bucket once you commandeer a Scarab!

Skull: Pain Train

Bombers will be constantly floating toward your bases, so if you have turrets up and running, this

OBJECTIVE: KILL 10 BOMBER FORMS

should be an automatic accomplishment.

Cheat effect: All player units train 50% faster. Final score will decrease.

Black Box 13

The box can be found up on the ledge just northeast of the third Covenant base, right above the teleport pad.

MISSION IV - RECTOR

to the nuclear core (X button). When your caravan starts to head up the hill, keep the nuclear core at the back of the pack so it doesn't take damage. Take down the first Covenant base and set up your second base. You may want to move your Global Rally Point up to the second base so you have all units gathering for the next mobilization.

Keep an eye out for Vampires as you move up; they love to target the nuclear core. Wolverines, with their ground-to-air capabilities, are effective in taking them down. Be sure to heal the Elephant any time there is a break in the action. Take down the second Covenant base and set up your third UNSC base. By this point you should have a Field Armory to expand your maximum unit capacity and a mega-force that includes high-powered Scorpions and Vultures! The third and final Covenant base should be a walk in the park.

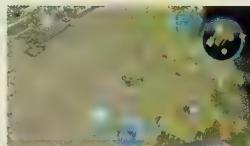

Achievement: Didn't Get to Second Base

OBJECTIVE: DON'T CLAIM ANY EXTRA BASES
To achieve this goal, you will need to operate from your first base only. You can tear down enemy bases, but you cannot create new ones in their place. Careful base planning is crucial, since you will be restricted to a handful of unit types and progress will be slow.

Skull: Bountiful Harvest

This kill objective is easily achieved if you prevent the Vampires from shooting at the nuclear core as you make your way up the ramps. As with any air enemy units, Missile Launchers Turrets will also aid in their disposal. The Skull will appear just to the right (northeast) of your third UNSC base (formerly the second Covenant base).

OBJECTIVE: KILL 20 VAMPIRES

Cheat effect: Supplies come in 25% faster. Final score will decrease.

Black Box 14

The box can be seen down the path just below the first Covenant base to the south. Only an infantry unit can fit through the woods (or you can send in a Hornet from above).

MISSION 16: ESCAPE

The hexagon in the center of the map is basically a giant puzzle. Each triangular "pie" section needs to be activated in the correct order for the portal to open. Naturally, your first Firebase sits in front of the first pie section that needs to be activated. Directly across is the second piece that should be activated—note that both symbols on both pieces are oriented toward the middle blue circle in the same manner. From your first base, move counter-clockwise around the hexagon and that's the third piece, directly across is the fourth. Finally, the last two opposing pieces are the fifth and sixth piece. It doesn't matter in which order you activate the two opposing pieces with the same symbols, as long as you maintain the basic order of the three sets of pairs—north and south, northwest and southeast, and southwest and northeast. If you mess it up, the whole thing resets again. The best way to approach this mission is to clear out as many enemies as you can before tackling the puzzle. The faster you deploy your forces, the quicker you can catch enemy bases in mid-construction. Once the last piece has been activated, you'll get the No Way Home? Achievement for completing Act IV and the Campaign mode!

Achievement: Thinkin' About My Doorbell

OBJECTIVE: UNLOCK THE DOORS IN ORDER

When you complete the mission, you'll get this achievement, too!

Skull: Emperor

Take on one Scarab at a time; don't get caught fighting two or more at once. The Skull will appear in the far northeast section of the map, nestled right up against a lovely Flood Launcher. Quickly grab it and boogie out of there. If you grabbed all 15 secret Skulls up to this point, you will be rewarded with the Graverobber Achievement. *Cheat effect: All player powers recharge in half the time. Final score will decrease.*

DATE: 25 FEBRUARY 2531

The final box can be found sitting at the northern end of the hexagon.

grand theft auto **CHINATOWN WARS**

Chinatown Wars delivers a brand new story in bad old Liberty City. You'll take the role of Huang Lee, sent to deliver a family heirloom to his uncle Kenny. Of course, nothing's ever easy in a *Grand Theft Auto* game! Things go from bad to worse for Huang from the start, pitching him headlong into a world of triangulation, betrayal, murder and revenge. This guide will give you tips for completing the storyline as well as information on many of the other features and options available in the game.

Welcome back to Liberty City

Hey buddy! Welcome back to the big city! You've been away for awhile, yeah? Some things have changed, while some have stayed the same. Let me catch you up on some of the stuff you might not be familiar with, now that you're back in business and getting ready to run this town.

Police and the "Wanted" Level

As a criminal in Liberty City, expect to find yourself on the wrong side of the law a lot. And there's a lot of law in Liberty, so you can expect to spend a fair amount of time running from the police. You'll earn a "wanted" level whenever you are spotted committing one of many different types of crimes—killing a civilian or police officer, running a toll booth without paying, stealing cars, buying or selling drugs, etc. The higher your "wanted" level (one through six stars), the more intense the pursuit. In *Chinatown Wars*, police chases are more interesting than earlier GTA titles. Now, you can control your "wanted" level by causing police cruisers to wreck out during the chase. Slam into them or get them to run into buildings and other obstacles at high speed to take them out. The number of cop car icons depicted in the upper right shows you how many you need to take out before dropping your "wanted" level by one star. A one-star "wanted" level will go away on its own pretty quickly, but anything more than that and you'll need to get personally involved and wreck some cops to get away clean.

Safehouses

The safehouse is your base of operations in Liberty City. You'll acquire several of them throughout the course of the game. Many are given to you by your mission contacts, and others you can purchase. You'll begin the game at a safehouse each time you play, and you can stash your excess drugs and store vehicles in them. They also serve as the locations where Ammu-Nation drops off your orders. You can spend a few hours resting at a safehouse to restore your health or access the Internet for online multiplayer

game options. The coolest new addition to the GTA series can also be found in your safehouses—a whiteboard that lets you replay any mission you've already completed.

The PDA

Technology has gotten better and better over the years. Who needs a lousy cell phone anymore when you can carry a pocket-sized computer that handles all of your day-to-day needs? Your PDA features an interactive map, access to e-mail, and even

weapon, radio and camera controls, mission briefings and even access to detailed statistical information on everything you've been up to since you hit town. Don't let that info fall into the hands of Liberty City's finest, know what I'm saying? Let's take a look at some of the more important features on the PDA.

The Map—it's tough to get around if you don't know where you're going. But you don't need to worry about that, since the powerful interactive map function of your PDA guarantees that you'll never be lost. Tap the map on the touch screen to activate a dual-screen view, with a detailed map of your immediate surroundings on the bottom screen and a fully zoomed-out map of the entire city up top. Note the red box on the city map—it indicates which section you're currently looking at on the touch screen.

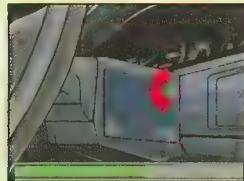

Caveman Heights

You can use the stylus to quickly move around the map, and when you find where you need to go, just double-tap to set a route to guide you there from your current position. You can also toggle all kinds of information on and off when you need to find mission contacts or other important areas of interest.

E-Mail—You'll receive important e-mails throughout the game. They might be contacts looking to hand you another mission, or dealers letting you know about the price of their wares, or which particular drugs they're looking to pay extra to acquire. Keep an eye on your inbox throughout the game to stay in the loop.

Grand Theft Auto

stolen wheels if you linger too long in the area. New to *Chinatown Wars* is the addition of the hotwiring minigames you'll often encounter when attempting to steal parked vehicles. There are a few different touch-screen minigames depending on the level of sophistication of the security. You'll need to follow the prompts to quickly and accurately bypass the security and start the vehicle before the alarm is sounded. If you do trigger the alarm, you'll still be able to drive, but you'll be a beacon for any police in the area until the alarm shuts off.

Drug Dealing

You'll need a steady cash flow if you want to survive in the big city, and you won't find a better way to make money than buying and selling narcotics of all kinds. There are dealers all over Liberty City—they appear on the radar as blue dots until you approach them, at which point they'll

be added to your PDA as permanent contacts. Dealing drugs follows a basic economic principle—buy low and sell high. Dealers will often e-mail you to let you know that they're looking to unload a certain drug for a bargain price, or that they're in need of a drug and are paying top dollar. Security cameras near dealers can make things riskier—you can destroy them with molotovs or grenades to reduce the chances of a bust after making a buy (an automatic two-star "wanted" level), but it also lowers the buying and selling prices for the dealer. This is good if you're buying, but not ideal when you're selling...so it's worth the risk to leave the cameras intact sometimes. If you get busted while holding drugs, the cops will confiscate them, so keep them in the stash box at your apartment unless you're on your way to unload them.

Odd Jobs Around Liberty City

There are lots of things to do in the big city when you're not working for a living. The best (and most fun) of these are the side jobs you can take on after "acquiring" three specific vehicles. Taxi cabs let you pick up and drop off fares to earn quick cash. Police cruisers give you the ability to use the crime computer to track and kill criminals, vigilante style. Ambulances play out similar to the taxi job, except you need to keep your passenger alive on the trip to the hospital. Performing exceptionally well at these jobs will earn you special bonuses. If you complete 15 fares in a row in a taxi, your cabs will become bulletproof. Take down all of the criminals in five waves of vigilante duty to double the effectiveness of body armor (this will be a big help with the later missions in the game). Complete a full round of paramedic duty in an ambulance to gain unlimited sprint.

walkthrough

The story walkthrough section of this guide is broken down by mission contacts. You'll find that you may need to jump around to different people and do some jobs for them before coming back to a contact, which is nothing new for the *GTA* series. The best way to use this guide is to pick up a mission from a contact in the game, then flip to that contact's section and find the mission there.

Wu "Kenny" Lee

Your first contact in Liberty City, Huang's Uncle "Kenny" gives you a foothold in the town by setting you up with an apartment and letting you run some odd jobs. This will help you to make some money and learn the ropes until you can branch out on your own. Kenny would like to earn favor with Triad boss Hsin Jaoming, but he can't seem to make the right moves to impress the aging mob boss.

Yu Jian

Prerequisite: None
Reward: \$50

Follow the instructions to bust out of the sinking vehicle, then swim to the nearby dock and grab the nearby car. After hotwiring it, follow the route on your map to reach Uncle Kenny's restaurant. Finally, drive around the corner to your first safehouse apartment and park in the garage to end the mission.

Wu "Kenny" Lee CONTINUED

Pursuit Farce

Prerequisite: Complete "Yu Jian"

Reward: \$50

"wanted" level, then hightail it back to your apartment to finish the mission.

Under the Gun

Prerequisite: Complete "Pursuit Farce"

Reward: \$50

Meet Ling in the alley behind Kenny's restaurant to learn about combat and guns. Next, follow Ling to the nearby dumpster and fish out a gun before following her to the second restaurant where rival gangsters are attacking.

Use your shiny new handgun to finish them off, then head up to the roof and save the manager from the last bad guy.

Payback

Prerequisite: Complete "Pursuit Farce"

Reward: \$50

ing lot where his friends are waiting. You'll be outnumbered, but they can't shoot very well. Take them all out and scoop up the weapons they drop to replenish your ammo.

The last enemy will attempt to escape by car. Steal the other car from the parking lot and pursue him. Ram or block the enemy's car to force it to stop, at which point he'll exit the vehicle. Get out and finish him off to complete the mission.

The Wheelman

Prerequisite: Complete "Payback"

Reward: \$50

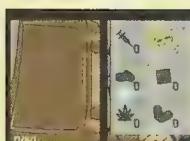

You'll have a short amount of time to steal the three cars marked on the map. Use the map to set a waypoint to the closest car. Once there, quickly hotwire the ride and deliver it to the garage. Two of the cars have security, so you'll need to stay on your toes and quickly disarm them to avoid setting off the alarm and being noticed by the cops. Once all three cars are safely in the garage, you'll be paid for a job well done.

Tricks of the Triad

Prerequisite: Complete "The Wheelman"

Reward: Drug Dealing Job Now Available, Chan Jaoming Missions Available

Head over to your apartment and you'll find a new addition there—a stash box! This is a permanent fixture in your safehouses from now on; you can store your weed and other contraband in here. Anything inside the box is safe from confiscation, but anything you're carrying in your bag will be lost if you get busted with it.

After moving the five units of acid from your stash box into the carryall, head back outside and follow the waypoint on the map to meet up with a dealer. Sell the acid Kenny gave you for a tidy profit. You will immediately get an email from another dealer

looking to unload some coke at a crazy low price. Meet up with him and buy all five bags. When the cops show up, get out of there fast and lose them before returning to your apartment and stashing the coke.

Natural Burn Killer

Prerequisite: Complete "Tricks of the Triad"

Reward: \$50

Follow the map to the gas station and make as many molotovs as you can before running out of gas. You'll want to gather at least ten before moving on to the next part of the mission.

At the car lot, use your molotovs to destroy the cars parked there, then head up the street to the shop that Kenny wants destroyed. Hurl molotovs at it to get it burning good—the damage meter in the upper left corner needs to completely fill before the building is permanently destroyed. When the fire truck appears on the scene, you can either destroy it or steal it and move it out of the way to prevent it from dousing the flames. Keep throwing molotovs at the shop until it's destroyed.

Recruitment Drive

Prerequisite: Complete "Natural Burn Killer"

Reward: \$50

Drive to the location of each of the potential recruits and rescue them. Each one will join you and assist in rescuing the remaining victims. Be sure to grab the dropped guns from each enemy to stock up on ammo.

Once all three recruits are safe, drive to the tattoo parlor. Watch out for enemy cars along the way—use drive-by attacks to take them out or simply outrun them. At the tattoo parlor, use the touch screen to fill in the tattoo design. Once it's completely

filled in, the mission will be complete. This is the last mission for Uncle Kenny for awhile, so if you haven't done so already, head to the "C" on the map to start working for Chan. Kenny mentioned that you'll need \$5,000 to fund the next stage of his plan, so this is a good time to do some drug dealing and build up your cash as well.

Carpe "Dime"

Prerequisite: Complete "Bomb Disposal" (Zhou Ming), earn at least \$5,000

Reward: None

To complete this mission, you'll need to steal the enemy van and return it to Kenny's garage. To get the van, either force it to stop or follow it until it reaches its destination and grab it there.

NOTE: You can now hijack the drug vans around the city and steal their contents.

NOTE: Completing "Carpe 'Dime'" re-activates Chan and Zhou as mission contacts, so you can continue on to "Store Wars" for Kenny or head to one of the other mission contacts and pick up their storylines.

Store Wars

Prerequisite: Complete "Carpe 'Dime'"

Reward: \$50

Drive to the store and park vehicles on the marked zones to prevent the Spanish Lords from getting close. Defend against the waves of attackers before they can successfully firebomb the store. Molotovs work well here—wait for each van to stop and unload the enemy gangsters, then toss a Molotov for massive destruction before finishing any surviving enemies with your gun.

Copter Carnage

Prerequisite: Complete "Store Wars," "Trail Blazer" (Hsin) and "The Tail Bagging the Dogs" (Wade)

Reward: \$400

Grab a vehicle and follow the Spanish Lords chopper back to their warehouse.

Kenny Strikes Back

Prerequisite: Complete "Copter Carnage"

Reward: None

Drive to the Spanish Lords' warehouse and enter the compound. Resistance will be fairly light, as the guards are armed only with handguns. Head to the back of the area and steal the parked drug van. The Spanish Lords will close the gate and bring out heavier firepower to try to stop you from leaving. Kill them all and the gate will open. Drive out and get the van back to Kenny's in one piece to complete the mission.

NOTE: After "Kenny Strikes Back," you'll receive an e-mail from Wade Heston, re-activating him as a mission contact on your map.

Missed the Boat?

Prerequisite: Complete "Kenny Strikes Back" and "Street of Rage" (Wade)

Reward: 10x Heroin

Get to the boat and drive it to the meet point with the mafia boat before the time runs out. You'll need to play an easy touch-screen minigame to restart your boat's motor once or twice on the way to the meet. When the Coast Guard shows up, flee back in the direction you came from at full speed. You'll still have to deal with your boat's dying engine, so the more distance you put between yourself and the Coast Guard boats, the better. Once you've lost them, return to the dock to make the dropoff and complete the mission.

NOTE: Completing "Missed the Boat?" puts Chan Jaoming and Zhou Ming back on your map. You can head to either of them and pick up their mission storylines now.

Wu "Kenny" Lee CONTINUED

Rat Race

Prerequisite: Complete "Wi-Find" (Wade)

Reward: None

For the first half of this mission, you'll be manning a minigun with unlimited ammo from the back of Kenny's truck. Keep the trigger down and decimate all attacking enemies and their vehicles. When you change vehicles, you'll be driving while Kenny mans the gun. An attack helicopter will be on your trail. Avoid driving through the crosshairs on the road to keep the truck in one piece until you reach Hsin's house.

NOTE: After completing "Rat Race," both Chan and Zhou will reappear on the radar. Now it's time to finish off the pair of rats for good, and you can go after them in whatever order you choose.

Chan Jaoming

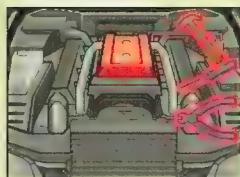

As the son of the current Triad leader, Chan feels that he's the obvious choice to succeed his father as leader of the gang. However, it's obvious to everyone but the dimwitted Chan that he's barely capable of keeping himself alive, let alone running a citywide mob.

Pimp His Ride

Prerequisite: Complete "Tricks of the Triad"

Reward: \$50

Follow the race champion without getting too close to spook him. This is easy enough; even if you lose sight of him, his car will appear as a blue dot on your radar map on the touch screen. When he parks his car outside the Pay 'N' Spray, steal it and quickly bring it to Chan's garage.

Use the touch screen to choose each tool and make some "modifications" to the champion's car. Now you need to return it to the Pay 'N' Spray before the tow truck comes to pick it up. The only problem: Driving it back won't be as easy as before, considering all of the damage you just did to the engine! The car will randomly veer out of control, so take it slow and easy to avoid causing any extra damage to the body that will tip off the owner.

Whack the Racers

Prerequisite: Complete "Pimp His Ride"

Reward: \$100, Zhou Ming missions available

Get a fast car (the one parked right outside of the Chan's place works nicely) and drive to the alley near the race's starting line. Do whatever is necessary to ensure that Chan wins the race. Slamming into the other three racers works well, and you

can also shoot up their rides to take them out of contention permanently. The race lasts for three laps, and you'll clear the mission as long as Chan crosses the finish line first. Immediately after completing this job, you'll receive an e-mail from Zhou Ming, a new mission contact.

Jackin' Chan

Prerequisite: Complete "Whack the Racers"

Reward: \$150

Drive to the site of Chan's car and you'll stumble into a raging gang war between some Triad members and the rivals who kidnapped Chan. The enemies will exit the scene after tossing a molotov that starts a massive fire, engulfing Chan's car as well as the nearby trucks. Follow the waypoint to find a fire truck, bring it back to the scene of the fire and quickly extinguish all of the flames before Chan dies. Finally, drive Chan back to his garage. You'll be finished with Chan for the time being; Zhou Ming will now be the only mission contact on the map.

Raw Deal

Prerequisite: Complete "Carpe 'Dime" (Kenny)

Reward: \$200

Your only goal during this brutal firefight mission will be to make sure that Chan gets to his club alive. The other Triad members don't matter, as long as Chan is safe. The enemies are equipped with submachine guns and assault rifles, so this will be a good opportunity to gear up on weaponry. After clearing the barricade with the tanker truck, you can grab a car and make a dash for the club; just be sure that Chan gets in the car before you put the pedal to the floor.

NOTE: Completing this mission opens Wade Heston and Hsin Jaoming as mission contacts.

Sa-Boat-Age

Prerequisite: Complete "Missed the Boat?" (Kenny)

Reward: 12x Ecstasy

Jump on the jet ski and race Chan through the markers. Eventually, Chan's boat will stall out as rival gangsters appear on the scene. Stay near Chan and quickly destroy each enemy boat as soon as it appears. Try not to move around too much or stray out of sight of Chan. After defeating all of the enemies, a helicopter will fly in to extract Chan.

NOTE: If you haven't done Zhou Ming's current missions, go take care of them now. If you've completed "Dragon Haul," already, then Hsin Jaoming will be your next mission contact.

Counterfeit Gangster

Prerequisite: Complete "One Shot, One Kill" (Hsin)

Reward: None

Chan will need to have all the evidence of his counterfeit operations destroyed before the Feds raid his bases of operation. Get to each marked location and take care of the evidence located at each one. For the locations with the crates, use molotovs or guns to destroy them. At the docks, use either the nearby crane or the parked bulldozers to put all of the marked cars into the water.

Slaying With Fire

Prerequisite: Complete "Counterfeit Gangster"

Reward: \$250

A free ride in a helicopter with an unlimited supply of molotovs? Heck, yes! Use the touch screen to lob cocktails at the enemies below as the chopper hovers over each area. Later in the mission, you'll need to quickly firebomb the

enemies who wield rocket launchers before they can fire on the chopper—it can only withstand a couple of direct hits before being destroyed. Finally, destroy the enemy helicopter by hitting it with molotovs whenever it approaches. It'll take a few direct hits to finish the enemy chopper.

Clear the Pier

Prerequisite: Complete "Rat Race" (Kenny)

Reward: \$500

The three-part battle against Chan and his men is long and brutal. Although there are body armor and health pickups along the way, you'll want to go in with full health and armor, packing lots of ammo. I also recommend a good drive-by weapon and a rocket launcher, also with a good ammo supply. When you enter the dock area, fight through all of Chan's men. Use grenades to wipe out the enemies hiding behind cars and other obstacles.

When you enter the warehouse, you'll need to fight from room to room through the building. A good SMG or rifle will be useful here. If any of Kenny's men live through the battle outside, they will accompany you inside. When you emerge outside the warehouse, Chan will take off in his race car.

Chase Kenny down and destroy his car with drive-by attacks or whatever other means you have available. One easy way is to trap his car between a barrier and your vehicle, then get clear and destroy them both with a well-placed rocket.

NOTE: If you haven't completed "Hit From the Tong" (Zhou) yet, you'll need to do so now. Otherwise, you'll receive an e-mail from Wade Heston telling you to meet him to learn the true identity of the real rat.

Zhou Ming

A highly intelligent—but wildly egomaniacal—player in the Triad gang, Zhou believes that he knows what's best for the Chinese mafia and intends to show Hsin Jaoming that he is the rightful heir to the throne.

Stealing the Show

Prerequisite: Complete "Whack the Racers"

Reward: \$150

Zhou won't see you unless you have 20 bags of weed, so visit some dealers before you head to his place. If you took some time to build up the finds that Uncle Kenny mentioned, this shouldn't be a problem. Drive to the gas station and hop onto the delivery truck, then use the stylus to throw crates into Zhou's truck. Once 15 crates have been safely transferred, press X to jump from the truck. Drive Zhou back to his garage to complete the job.

CONTINUED

Flatliner

Prerequisite: Complete "Stealing the Show"

Reward: \$150

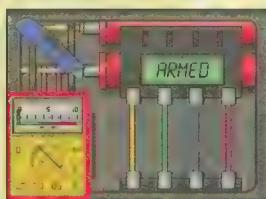

won't get busted, just attacked by the cops.

Keeping Uri alive during the hectic race back to the garage can be tricky. You'll have to watch the EKG monitor on the touch screen and quickly tap the heart icon to revive him whenever he starts flatlining. Once you get the ambulance into Zhou's garage, the mission will be complete.

**Bomb Disposal**

Prerequisite: Complete "Flatliner"

Reward: \$200

Drive to each stash car and enter the bomb van. To disarm the bomb, touch the voltmeter and then touch each of the wires, noting the voltage from each. When you've ascertained which wire has the highest voltage, use the cutter to slice it by slashing across the wire on the touch screen. When all three bombs are disarmed, drive to the stash car that's being attacked and take out all of Hsin's men.

In a final effort to destroy the stash cars, Hsin will send out another bomb van. You can meet it en route and destroy it with gunfire (expect heavy resistance from the gunmen in the van if you do this), or let it reach its destination, kill the enemy gangsters and then disarm the bomb in the same manner as the first three.

NOTE: At this point you'll receive an e-mail from Uncle Kenny. He'll be ready to move on his property buy on East Island, as long as you've got the \$5,000 he requested. If you haven't done so yet, build up your cash reserves via the drug trade and then go see Kenny for his next mission ("Carpe 'Dime").

Driven to Destruction

Prerequisite: Complete "Carpe 'Dime" (Kenny)

Reward: \$300

Drive Zhou's truck to the location of each group of dealers. Zhou will be sporting a powerful machine gun that can make short work of any opposition. Your goal is to fill the carnage meter in the upper left corner. There are four groups of dealers

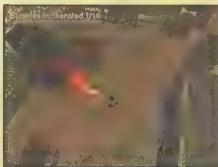

that need to be wiped out before the meter is filled. Zhou's truck can take a ton of damage, so don't worry about being overly cautious—just drive right into the middle of each group and let Zhou decimate them quickly before moving to the next group.

Cash & Burn

Prerequisite: Complete "Missed the Boat?" (Kenny)

Reward: None

Locate the car with the flamethrower and drive it to the construction site. Once there, use the flamethrower to ignite the pallets of building materials. After destroying a few of them, guards will begin to show up and attack. The flamethrower will take them down easily; you'll be in little danger of running out of ammo, so don't bother switching to a different weapon. Once all but the last few stacks of materials are destroyed, the remaining ones will appear on your radar.

**Dragon Haul Z**

Prerequisite: Complete "Cash & Burn"

Reward: \$1,000

Get to the truck carrying the dragon costume and hijack it quickly; you have to be at the meeting place before the time runs out. If you have a "wanted" level, you'll need to lose it before delivering the truck. This is pretty easy since the truck has a lot of weight, which makes knocking out pursuing police cruisers a simple task.

Once Zhou and the rest of the crew are safely disguised in the dragon costume, you must put on a convincing performance in the parade. Move through the markers and use the touch screen to make tight turns or ignite the "dragon breath" flames. Don't waste any time with these special moves, as the parade crowd is a suspicious lot and any misstep you make will increase their doubts about your performance. If the "Suspicion" meter fills, you'll fail the mission. Reach the end of the parade route to escape successfully.

NOTE: You'll be done with Zhou for a few missions. If you haven't done "Sa-Boat-Age" for Chan yet, head there now. If you have completed that mission, you should have new missions for Hsin Jaoming available at this point.

The Fandom Menace

Prerequisite: Complete "One Shot, One Kill" (Hsin)

Reward: \$200

[fandom menace 001]

This is a simple mission, as long as you've got a good drive-by weapon like an SMG. Drive Zhou to pick up his friends, then drive them all back to Zhou's place. Along the way, paparazzi will snap incriminating photos and make a run for their offices to publish them. Each time this happens, quickly gun down the offending photographer before following the marked route.

NOTE: That's all Zhou has for you for the time being. If you haven't been to see Chan yet, go pick up his next mission. Otherwise, you should have Wade Heston back on the map.

So Near, Yet Sonar

Prerequisite: Complete "The Fandom Menace" and "Torpedo Run" (Wade)

Reward: 15x Acid

The salvage boat is equipped with a handy sonar that will let you spot the underwater debris and the crates that Zhou requires you to locate. Pilot the boat over each blip and use the crane to bring up the goods.

After finding two of the requisite four crates, the Coast Guard will appear on the scene. Use the sonar to spot their ships before they see you—if they attack, you'll need to get far enough away before continuing your search.

NOTE: If you haven't yet completed "Counterfeit Gangster" for Chan, do that now; otherwise, you'll receive an e-mail from Hsin, who has new work for you.

Hit From the Tong

Prerequisite: Complete "Rat Race"

Reward: None

This action-packed mission has you chasing Zhou through a construction site and fighting off dozens of henchmen as well as an attack helicopter! Make sure

you're prepared for war—don't go in with anything less than the best assault rifle, grenades and body armor money can buy, and stock up on ammo, too. Once in the compound, kill all attacking enemies and then head to the rooftop to fight the chopper. Hit it with your rocket launcher, then hide behind the conveniently-placed AC unit to avoid its attack run. Two hits and the chopper will retreat. Now, repeat the whole process twice more—kill henchmen and fight off the chopper—to finish Zhou, and the mission.

NOTE: If you haven't already completed "Clear the Pier" (Chan), do that now. Otherwise, you'll receive an e-mail from Wade and can head off to the final mission now.

Hsin Jaoming

The powerful Triad boss, Hsin Jaoming is facing possible mutiny from multiple directions, with Uncle Kenny, Zhou Ming and his own son, Chan, competing for his favor and the opportunity to take his place at the head of the triad.

Trail Blazer

Prerequisite: Complete "Driven to Destruction" (Zhou Ming) and "Raw Deal" (Chan Jaoming)

Reward: \$300

Steal the tanker and hit the road, keeping your speed up to stay ahead of the trail of fire. Don't worry about other cars—the tanker is heavy enough that you can safely plow right through them without losing much speed. Take the turns at wide arcs to

avoid losing speed. When you reach the destination, put the tanker on the mark and jump clear before it explodes.

The Offshore Offload

Prerequisite: Complete "Dragon Haul Z" (Zhou) and "Sa-Boat-Age" (Chan)

Reward: \$700

[offshore offload 001]

Grab a four-door car and drive to the location of the police van. Approach the van from the side alley (so the nearby police officers don't spot you) and bust Hsin's men out. Get to the

car, drive to the accountant's location and grab the cash he drops. Finally, drive to the helipad so Hsin's men can make their escape.

One Shot, One Kill

Prerequisite: Complete "The Offshore Offload"

Reward: None

Drive to the hotel and enter the building to find the balcony with the sniper rifle. After assembling the rifle, use the scope to scan the courtyard for the target. He'll stand out, since he's the only guy wearing a white shirt.

Wait for him to stop moving and take your shot. Finally, exit the building and evade the three-star "wanted" level to complete the mission.

NOTE: You'll be done with Hsin for now. After completing "One Shot, One Kill," both Chan and Zhou will contact you and offer new missions.

CONTINUED

By Myriads of Swords

Prerequisite: Complete "Counterfeit Gangster" (Chan) and "So Near, Yet Sonar" (Zhou)

Reward: None

Go get the sword that's been left for you in the dumpster and drive to the locations of the two traitors. If you can get close without alerting their guards, you'll be able to finish them quickly with the blade; otherwise, you'll need to fight your way through enemies and chase down the fleeing traitors. You must kill the traitors with the sword, but you can use any weapon on the guards. When both traitors are dead and you've obtained their I.D.s, head to your meeting with Hsin at the amusement park.

A Shadow of Doubt

Prerequisite: Complete "By Myriads of Swords"

Reward: None

You'll be tailing the Korean gangster on foot as well as by car during this mission. For the first part, follow the gangster's distinctive pink umbrella as he walks to his meeting. He'll stop and scan behind him for followers; get behind cover whenever this happens. When the target reaches his meeting, quickly plant the bug on their car.

Now you must follow the Korean's car by using the blips put on your radar by the bug. They will show up as a stationary blue dot until you get close, at which point the blip will update to a more recent location. If you fall too far behind, you'll lose them and fail the mission.

NOTE: After completing this mission, you'll get an e-mail from Rudy D'Avanzo. An 'R' will appear on the map to mark Rudy's location and the start of a new mission chain. You can either continue on to Hsin's next mission or head over to Rudy's to start working for him.

Friend or Foe?

Prerequisite: Complete "A Shadow of Doubt"

Reward: \$200

Pick up the explosives and drive to the Korean's safe house. Plant the bomb and blast a hole in the wall, then back the van up. While Hsin's men steal the safe, stay outside and fight off the attacking Koreans. Molotovs or grenades work well here, as the enemies will drive up in cars and form groups while attacking. Finally, drive the van back to Hsin's garage and crack the safe to get at the files inside.

Arms Out of Harm's Way

Prerequisite: Complete "Scrambled" (Wade)

Reward: \$200

Drive to the docks where the arms deal is going down. Shoot the place up, kill all opposition and chase down the fleeing dealers on the jet ski parked at the jetty. The boat will toss out mines, but the ski is highly mobile and you shouldn't have trouble avoiding them. Destroying the enemy boat will complete the mission.

The Wages of Hsin

Prerequisite: Complete "Arms Out of Harm's Way"

Reward: \$2,500

Pick up the bombs and drive to the Korean's base. Once inside, make your way to each of the markers and plant the explosives. Resistance will be very heavy, so don't go in without heavy weaponry and lots of ammo. When all of the bombs have been detonated, make your escape by heading to the rear of the compound and jumping into the water where a getaway boat is waiting.

NOTE: If you've completed the mission "Convoy Conflict" for Lester, you'll receive an e-mail from Wade Heston. Otherwise, go complete Lester's mission at this point.

A Rude Awakening

Prerequisite: Complete "Oversights" (Rudy)

Reward: \$500 (on Rudy's body after mission completion)

Scout out the locations where Rudy might be hiding out. You'll find him at either

the second or third location. Chase his car and destroy it before he can escape. There's no automatic reward for this mission, but if you collect the "\$" icon on Rudy's corpse after the mission is finished, you'll find a cool \$500.

NOTE: Obviously, there won't be any more Rudy missions after this point. If you've completed "See No Evil" (Lester) as well, you'll get an e-mail from Wade. Otherwise, go see Lester at this point.

Wade Heston

Liberty City Police are often mixed up in the business of the criminal element, and Heston is no exception. A junkie cop who's been forced to work for the Triads, Heston is in a bind. You'll need to find out what's going on with Heston's connection to the Triads will help him out of his predicament.

The Tow Job

Prerequisite: Complete "Raw Deal" (Chan)

Reward: None

Drive to the location of the Korean's car, then follow the tow truck and force it to stop. The easiest way to do this is by shooting it repeatedly with an SMG and then taking out the driver and his backup when the truck stops. Use the touch screen to lower the Korean's car from the truck.

Do whatever it takes to earn a two-star "wanted" level (destroying a police car is a quick route to this level of notoriety), then drive the stolen car back to the police HQ to ensure that the planted drugs are found. Completing the mission clears your "wanted" level automatically.

The Tail Bagging the Dogs

Prerequisite: Complete "The Tow Job," deliver two bags of coke to Heston

Reward: None

Drive to police HQ, then follow the Korean gangster as he makes the rounds and reports to several underbosses. After each meeting, waste the underboss and then get back to following the Korean. Having a good drive-by weapon is crucial for

this mission, so stock up on SMG ammo from Ammu-Nation prior to taking it on if you're running low. The final underboss will jump into the Korean's vehicle and attempt to flee, so destroy the car by any means necessary. The easiest method is to tear it apart with machine gun fire from the safety of your own vehicle.

NOTE: After completing "The Tail Bagging the Dogs," and if you've completed everything Hsin has for you up to this point, Kenny will e-mail you. He'll ask you to deal with the Spanish Lords, so head back to his place to continue the storyline.

Weapons of Mass Distraction

Prerequisite: Complete "Kenny Strikes Back" (Kenny)

Reward: None

Drive to the Korean hangout and destroy one of the cars parked outside to attract their attention. Kill all of the enemies who appear before driving to the next gang house. Attack Korean gangsters around the remaining two houses, then lead them to the docks and make your escape via the boat parked nearby.

Street of Rage

Prerequisite: Complete Weapons of Mass Distraction

Reward: \$200

Drive to the scene of the ambush and take out all of the enemies. You can stay in your vehicle and clear out most of them, but you'll have to head into the building where Heston is trapped on foot. Body armor is highly recommended here.

The enemy guarding Heston is wielding a minigun that will tear you apart at close range. Use a weapon with good range (like molotovs, grenades or an assault rifle) to take him out and rescue Heston.

Operation Northwood

Prerequisite: Complete "The Fandom Menace" (Zhou)

Reward: \$200

You'll need a fast car for this mission. Take it to the garage and fit the bomb onto the engine, then drive to the bar to scout out the dealer. When the dealer runs, chase after him. His car is extremely fast and he'll try to lose you by cutting through alleyways and parks, but you can stay on his tail by watching for the skid marks he leaves behind. Stay with him and park the car at his hideout, then get clear before using the remote detonator to destroy the place.

Torpedo Run

Prerequisite: Complete "Operation Northwood"

Reward: None

Hop into the police boat and chase down the target ship. Avoid the mines it drops and destroy it with your torpedoes. Return to the jetty and you'll see some enemies pile into a van and attempt to flee. Chase them

down and finish them off—you'll want a good drive-by weapon to stop the van, and you can stay in your vehicle and take out the enemies to avoid taking damage.

CONTINUED

Wade Heston CONTINUED

Scrambled

Prerequisite: Complete "Faster Pusher Man! Sell! Sell!" (Leroy), "Friend or Foe?" (Hsin) and "Grave Situation" (Rudy)
Reward: None

Follow your route toward the scramblers. As you get near, you'll lose the signal as your radar goes haywire from the scrambler. Use the interference meter in the upper left corner to figure out where the scrambler is located. The meter fills as you move toward its location, but depletes if you're moving away from it. Once you locate a scrambler, take out the guards and then destroy the truck. There are three scramblers to find and destroy before completing the mission.

NOTE: After completing "Scrambled," you'll receive an e-mail from Rudy D'Avanzo, asking you to come and meet him. Look for the "R" on your map if you want to visit Rudy and continue his missions.

Evidence Dash

Prerequisite: Complete "The World's a Stooge" (Rudy), "The Wages of Hsin" (Hsin) and "Convoy Conflict" (Lester)
Reward: \$200

Hijack Wade's car by whatever means necessary—driving it off the road, blocking it with your vehicle and car-jacking it works well—and get it to the Pay 'N' Spray before the pursuers can destroy it. Find a secluded alleyway that's more than 50 feet from a street or sidewalk, then get out and search the trunk for evidence. Follow the instructions on the touch screen to burn the documents, then drive the car back to Wade to complete the mission.

NOTE: After completing "Evidence Dash," you'll receive e-mails from Lester and Rudy. Both of them will have new missions that you can tackle in whatever order you wish.

Wi-Find

Prerequisite: Complete "A Rude Awakening" (Hsin) and "See No Evil" (Lester)
Reward: \$200

To download the files and finally learn the identity of the rat within the organization, you'll need to find the wi-fi hotspot between four sets of signals. For each download, check your map to find the signal locations, then head for a spot that's directly between them.

Once there, stay put until the download completes. This mission gets progressively more difficult as the cops get word of your exploits and you start earning "wanted" levels each time you get a download. When you've got all of the download, you'll have to use your driving skills to shake a three-star "wanted" level before returning to Wade to complete the mission.

NOTE: After completing "Wi-Find," you'll receive an e-mail from Uncle Kenny. He'll have a new mission for you, so head there next.

Salt in the Wound

Prerequisite: Complete "Hit From the Tong" (Zhou) and "Clear the Pier" (Chan)
Reward: Game Over, Man!

Fight your way through the area. Use cover as needed—the enemies have powerful assault rifles and can kill you very quickly. Advance slowly and use cover until Wade heads for the controls to the gate. Defend him against the attacking enemies until he figures out how to get the gate open.

Kenny tries to escape via boat. Follow Wade and hop onto the boat. You'll be manning a machine gun as Wade chases after Kenny's boat. Focus your fire on the attack helicopter to bring it down quickly. When Wade reaches the jetty, you'll see Kenny jump into a car and speed off.

Your escapades during the boat chase will have the cops swarming like angry hornets, so you'll need to deal with a four-star "wanted" level as you chase Kenny. He'll make a beeline for Hsin's place, and luckily it's not too far. Just try to avoid being captured or killed by the police along the way and park in the marked spot outside of Hsin's house.

This is it—time to put an end to all of the double-crossing and mind games. Kenny will be armed with the sword that started the whole mess for Huang. Use the fountain in the middle of the room to keep your distance; taking a hit from the sword will hurt a lot.

Kill Kenny to complete the mission and finish the game.

Lester Leroc

Looc is a partly private outfit that's been jamming to infiltrate a biker gang that's suspected of protecting a traitor in the Triads. He needs Huang's help to convince the bikers that he can hang with their riding skills.

Double Trouble

Prerequisite: Complete "By Myriads of Swords" (Hsin) and bring 10x Ecstasy to Lester
Reward: None

Ride Lester's bike to the meet with the biker gang and impress them by driving through the markers. When members of The Lost biker gang appear on the scene, make short work of them with your driv-by skills before continuing along the markers. Finally, meet up with Lester and plant the explosives at the statue in the park to end the audition with a bang!

Faster Pusher Man! Sell! Sell!

Prerequisite: Complete "Double Trouble"

Reward: 10x Coke

This mission is basically a race against rival drug dealers. Look for buyers (marked by blue dots on the map) and stop near them on foot or in a vehicle. Move a bag of coke from your bag into the buyers to complete the deal. Shortly after starting, rival dealers will appear on the scene. If one of them is near a buyer, the buyer will go to them over you. If you have a good SMG or assault rifle you can destroy the rival cars pretty easily to prevent them from making sales. When you've filled the "Coke Sold" meter, head back to Burger Shot to deliver the money to Leroy and complete the mission.

Rudy D'Avanzo

D'Avanzo is a dedicated gangster who wants to make sure his name is threatening to bring down both the Triads and the Mafia.

Grave Situation

Prerequisite: Complete "A Shadow of Doubt" (Hsin)

Reward: \$250

Enemy gangsters will ambush D'Avanzo in the cemetery. Protect him from the attackers as he moves toward the exit. A good weapon—like an assault rifle—will help out a lot during this mission, so be sure to gear up before accepting it (molotovs or grenades will also be very useful). Once Rudy reaches the exit safely, the mission will be complete.

NOTE: Completing "Grave Situation" results in an e-mail from Wade Heston. You can head over to see what he wants now.

Steal the Wheels

Prerequisite: Complete "Scrambled" (Wade)

Reward: \$50

Get to the compound and look around the side for a ramp leading onto the rooftop. From there you can drop inside the walled compound. Eliminate all of the enemies and destroy the parked tanker to blast open the gates. Hotwire the marked car and drive it back to Rudy's place. Enemy cars will attack you along the way, but it's better to ignore them than to try to fight them off.

The World's a Stooge

Prerequisite: Complete "Steal the Wheels"

Reward: \$1,500

Rudy will ask you to eliminate three rats. Each one will be surrounded by bodyguards and will attempt to flee the scene when the shooting starts. Use grenades or high-powered weaponry like assault rifles or a flamethrower to quickly mop up all of the enemies at each location.

Convoy Conflict

Prerequisite: Complete "Arms Out of Harm's Way" (Hsin) and "Steal the Wheels" (Rudy)

Reward: \$500

Stay close to the vans and shoot up any Lost bikers or vehicles that try to get close. Watch for enemies along the road as well.

NOTE: If you've completed "The Worlds a Stooge" (Rudy) and "The Wages of Hsin" (Hsin), you'll get an e-mail from Wade Heston with a new mission for you. Otherwise, finish up any work left for Rudy and Hsin at this point.

Oversights

Prerequisite: Complete "Evidence Dash" (Wade)

Reward: \$250

Drive to the meeting location, then break into the compound and get to the sniper rifle on the rooftop. Use the rifle to eliminate all of the attacking enemies and ensure that Rudy gets out of the area alive. The sniper rifle is very powerful—if you blow up the enemy cars that appear before their occupants can get out, you'll cut down the number of individual enemies running rampant.

NOTE: After completing "Oversights," you'll receive an e-mail from Hsin. He'll ask you to come see him as soon as possible.

See No Evil

Prerequisite: Complete "Evidence Dash" (Wade)

Reward: None

Follow Lester and Meredith as they drive to the apartment building. Hang back a bit and let any pursuing bikers pass you, then quickly take them out before they reach Lester's car. Try not to do any shooting near the car or Meredith's suspicion meter will rise.

Once you reach the apartments, defend against the waves of attacking bikers to prevent them from entering the building. Grenades will be your friends here, since the bikers like to ride in together and clump up into groups as they attack.

NOTE: If you've completed "A Rude Awakening" for Hsin, you'll get an e-mail from Wade Heston after completing "See No Evil." Otherwise, go see Hsin and complete his mission at this point.

ANIMAL CROSSING: WILD WORLD

Get a Golden Shovel

Buy a second shovel from Tom Nook and bury one of them in the ground. Remember where you buried it, and dig it up 24 hours later to find a Golden Shovel. The Golden Shovel can be used to plant money trees, although they will not always bear fruit.

Get a Golden Net

Catch all the bugs that appear in the game to get the Golden Net from Tortimer. It is not necessary to donate them to the museum, as long as you have caught them all. Note that bugs given to you by another player do not count toward getting the Golden Net. The Golden Net is wider than the regular net, making it easier to catch bugs.

Get a Golden Rod

Catch all the fish that appear in the game to get the Golden Rod from Tortimer. It's not necessary to donate them to the museum, as long as you catch them all. Note that fish given to you by another player do not count toward getting the Golden Rod, which allows you to catch fish more easily.

Get a Golden Can

Once Pelly or Phyllis deems your town perfect, keep it perfect for 16 days. The next time you speak to Pelly or Phyllis, you'll get the Golden Can, which can turn withering flowers into gold.

Get a Golden Slingshot

Shoot 15 floating presents out of the sky with the Slingshot. The 16th present you see float by will be the Golden Slingshot, so don't miss it! The Golden Slingshot fires three bullets at a time, making it easier to shoot down presents.

Get a Golden Axe

Buy a red turnip from Joan and bury it in the ground. This starts a long trading quest which can get you some rare items, such as Tom Nook's Pic, K.K.'s pic, Pascal's Pic and the Golden Axe. Water the red turnip daily and dig it up later. (For this purpose, you can dig it up after one day if you don't feel like spending the time.) The next time Wendell is in town, give him your red turnip. He'll either give you the country guitar or the turban. If you get the country guitar, give it to K.K. Slider the next Saturday and he'll give you his picture. But if Wendell gives you the turban, give it to Sarahah to get either a massage chair or a red vase. Give the red vase to Crazy Reddi when he's in town to get the safe, which you should give to Tom Nook in exchange for his picture. If you got the massage chair, give it to Tortimer on your town's next holiday to get a scallop. Give the scallop to Pascal when you next see him to get either the Golden Axe or Pascal's pic. You can start the quest over (by purchasing another red turnip) if you want to keep all of the items mentioned above.

Fireworks

To trigger the fireworks that appear when you touch the flagpole at the end of a stage, make sure the last two digits of the timer are the same number (i.e. 99, 88, etc.) at the exact instant when Mario or Luigi touches the flagpole. If your timing is right, you will be rewarded with explosions equal to that number. Since each explosion is worth 4,000 points, you can get a total of 36,000 extra points at the end of each stage instead of the maximum of 8,000 points earned by just hitting the top of the

flagpole. Activating fireworks also triggers a Toad House to appear at each stage's starting point, with a reward inside that is also determined by the last two digits of the timer. If the numbers are 11, 22 or 33, you'll find a random power-up inside the Toad House that appears. If they're 44, 55 or 66, you'll get a 1-Up, and if they're 77, 88 or 99, the Toad House will contain a Mega Mushroom.

The game will automatically save. Turn off the game and you can take your dog for a walk again immediately! This is a great way to increase your chances of finding rare presents.

Mystery Presents

When walking your dog, sometimes you'll see a present just lying on the sidewalk. Your dog will only pick it up if you notice the present and jerk your pooch in the direction of the present. These presents are usually better than the ones that are already marked by Question Marks on the map.

DIDDY KONG RACING

Play as Drumstick

To play as Drumstick, you must first earn all of the trophies and amulets in all stages. Once you've done this, return to the main area where Taj can be found and look for the frogs that jump around in the watery area in front of the giant WizPig head. One of the frogs will have a red rooster comb on its head; if you touch that frog with your vehicle, Drumstick will be released.

Play as T.T.

To play as T.T. you must race on each course in Time Trial mode until T.T. comes out to challenge you; he won't appear until you beat the pre-programmed track record in a particular track by a fairly large margin. When he challenges you, you must defeat him in a race on that course. Once you beat him in a particular track, a small T.T. icon will appear when you select that track in Time Trial mode. When you beat T.T. and earn this T.T. symbol in every single track, T.T. will appear as a playable character.

FIGHTERS MEGAMIX

Access Hyper Mode

Fight your way through Survival Mode, winning at least two fights in the three-minute trial, at least six fights in the seven-minute trial and at least 11 fights in the 15-minute trial. Now go to the Options Plus menu and you'll find the Hyper Mode option.

Infinite Health & Stage Select

After playing 500 games, go into the Options Plus menu and you'll see three more options; you can choose a caged or non-caged arena and you'll be able to give either player infinite health.

Play as the AM2 Palm Tree

Method 1: Clear all of the single-player courses with five different characters. Play 1,000 games and then choose course 1; you'll be playing as the palm tree.

Method 2: Play the game for 84 hours. Then, choose Kuma with the Z button and you'll fight as the tree.

Play as a Slab of Meat

Simply turn the Saturn on with *Fighters Megamix* inside 29 times (or reset the game and reload it 29 times). Then start a game, highlight Kuma at the character-select screen and press X. The meat's moves are almost identical to Sanman's.

GALAXY FIGHT

Boss Code

Highlight "Vs. Mode" at the main menu, then press and hold L, R and Y on both controllers. While holding those six buttons down, press START on Controller 1. When the character-select screen appears, you'll find four additional characters to choose from: Bonus, Yacopo, Rouwe and Felden.

GUARDIAN HEROES

Cheat Mode

To access a Debug feature, choose "Option Mode" from the title screen. When the Options menu appears, highlight "EXIT" and hold the X, B and Z buttons. Here's the tricky part: While holding those buttons down, press and continue to hold Down on the D-pad, then quickly tap the A button while the "DIP Switch" option is highlighted. Note that you must tap the A button before the cursor starts to move down again—remember that you're still holding X + B + Z + Down—and you must release the A button immediately after you press it, before the DIP Switch menu appears. If you've done this correctly, you'll find three new options at the dip switch menu. Turn the "Energy Level Disp." option on to see the experience levels of all enemies in the Story Mode. With the "Next Exp. Disp." option on, you'll get a red-and-black "Next" indicator on the screen in Story Mode that saves you from having to pause the game just to find out how many experience points you need to go up a level. Best of all is the "Debug" option; turn this on to gain access to the following features:

- A "Test Mode" option will appear at the Options menu; this allows you to see any of the game's seven different endings.
- In Story Mode, when the character set-up menu appears, your character will have a level of 200; you'll also have 200 bonus points to fully max out your strength, vitality, intelligence, mental powers, agility and luck ratings.
- In Story Mode, a stage-select menu will appear after you choose your character.

• In Story Mode, you can refill your life points at any time by holding X + Y + Z and pressing Up. (If you hold X + Y + Z and press Down, you'll die instead.)

• In Story Mode, you can skip to different scenes using the following commands:

Hold R and press START to skip ahead one event
Hold L + R and press START to skip back one event
• In Vs. Mode, you can choose from any of 45 different characters, including all of the heroes and ememies from the whole game.

• In Story Mode and Vs. Mode, if you pause the game and tap the L button, you will see boxes drawn around the characters that show how the game's collision detection works; if an enemy touches the box, it registers a hit. If you pause and tap L a second time, the boxes will be three-dimensional. Pause and tap L a third time to remove the boxes.

• If you have both the "Debug" and the "Next Exp." options turned on, the red-and-black meter in Story Mode will display your karma points instead of experience points.

HANG-ON GP

Access All Courses

Access the Option menu and highlight any icon. Next, press B to return to the main menu, then press R, R, L, R on top of the controller; you'll hear a xylophone sound to confirm the code. Now you can race on the previously-unavailable courses without having mastered the first three.

THE HOUSE OF THE DEAD

Infinite Ammo

During the game, hold L + R and press Y, Y, Y; you'll hear a sound to confirm the code. Now you'll never need to reload your weapon.

Score Display

During the game, hold L + R and press X, X, X; your score will appear on the screen. To remove it, just enter the same code again.

Secret Characters

Choose "Saturn" mode from the main menu; when the character select menu appears, hold L + R and press Up, Down, X, Y, Z; you'll hear a signal to confirm the code. Now cycle through the characters and you'll find two new ones, you can choose to play as Sophie or one of the researchers.

Now highlight "Arcade" or "Saturn" mode; hold L + R and press START, A or C. If you chose "Arcade" mode, the cheat menu will appear; if you chose "Saturn" mode, you must continue to hold L + R when choosing your character until the cheat menu appears. The cheat menu allows you to start at any stage, become Invincible (set "Lives" to "Infinite") or even change the color of the enemy characters' blood.

IRON STORM

Cheat Code

When the status screen appears that shows the date before you begin your turn, press Up, Down, Up, Down, L, A, Z, Y; you'll hear a trumpet fanfare to confirm the code. Now start your turn and you'll find that you can use the "Make" or "Allocate" commands on any location on the map.

Secret Attack Configuration Menu

When initiating an attack, a statistics screen will appear just before the animated sequence that shows the attack being carried out. If you press the A button on Controller 2 immediately as this statistics screen appears, you'll get a secret configuration menu that allows you to change the way the animated sequence looks. Change the weather from "Haze" (normal) to "Yuki" (snow), "Ame" (rain) or "Kumori" (overcast), or change the camera setting to one of nearly 100 pre-programmed camera movements (the default "100" gives you the recommended camera setting for that battle).

LAST GLADIATORS DIGITAL PINBALL

Hidden "Victors" Table

At the title screen, after the words "PRESS START BUTTON" appear, press X, Y, Z, X, Y, Z, C, B, A, Up, Up, START. You'll hear a warp immediately to the "Victors" table, a small pinball machine which actually leads to the credit sequence that plays when you beat the game.

At the title screen, after the words "PRESS START BUTTON" appear, press Up, Up, Up, Up, A, B, C, Down, Down, X, Y, Z, START. You'll hear a sound to confirm. Now start the game; at any time during play (on any table), hold X and press Up; you'll see two sets of numbers appear in the bottom right corner of the screen. Change the number on the right by pressing Up or Down on the D-pad, then press Z to trigger one of the current table's special modes; for example, on the "Gladiators" table, each the following modes can be activated by pressing Z when the corner number is set as follows:

- 0—Multiball
- 01—Roman Triumph
- 02—Retarius
- 03—Bloody Arena (Two-Ball)
- 04—Chariot Races (Three-Ball)
- 05—Extra Ball Lit
- 06—Senator Mystery Lit
- 07—SPQR
- 08—Thracians
- 09—Empire
- 10—Gladiator Show

Experiment with the other tables to find out what each of the 11 numbers can trigger. Note: You can't trigger one mode if the results of another mode are still in effect. Also, the Saturn will crash after you run out of balls on any table with the cheat mode in place. Heh heh...sorry. To remove the numbers from the screen, hold Y and press Down; while the numbers are gone, hold Y and press Up to pause or unpause the game without obstructing the screen, or hold Z and press Up repeatedly to step through the animation one "frame" at a time.

Choose any game mode. When you are asked to select your game type, press Up, Up, Down, Down, Left, Right, Z, Y; you'll hear a sheep say, "Baaa!" (Note: When playing in Arcade mode, you must enter the code quickly because there's a five-second timer on the transmission select screen.) Now start the race and you'll find that your bike—and all of your opponents—have turned into sheep, and the background music will play a deranged version of "Mary Had a Little Lamb."

- "Turbo" and "Auto Guard" allow you to disable the in-game speed and guard prompts that appear before each battle; if you set "Turbo" to "On," you'll always play at the turbo setting you chose at the Option Mode menu.

- "Max Round" lets you change the round counter from three to one or five.

- "BGM" gives you the opportunity to change the game's background music into the music from the original *Darkstalkers* game! Choose the "Random" setting to have the game randomly choose between the music from "Classic" *Darkstalkers* or the default *Night Warriors* music (called "Hunter" after the game's Japanese title, *Vampire Hunter*).

- "Scenery" lets you alter the colors of the game's backgrounds to match those of the original *Darkstalkers* game. Also, if you set this option to "Classic" and watch the game's introductory demo, you'll see the intro from the original *Darkstalkers* game.

- Like the previous two choices, "CPU Color" gives you the ability to choose characters with the "Classic" *Darkstalkers* colors.

- "Full Animation" will restore several insignificant frames of animation to certain characters' movements which were deleted from the default "Cut" setting.

- "BGM Test" lets you listen to the game's music.

First, enter the "New Weapons" code as shown above. Next, at the same screen, press Left, Left, Right, Right, Down, Up, Down, Up, L button, R button; you'll hear the confirmation sound again. Start the game to find that the dragon's rider has vanished. The dragon has no standard missiles; only the lock-on weapon will work.

PANZER DRAGOON II ZWEI

Radar Change

At any time during the game, if you hold the A button on Controller 2, the radar will change from a top-down scanner to a side-view radar that shows how high your enemies are from the ground; you'll see a tiny triangle representing each foe.

PANZER DRAGOON SAGA

Fun With Zweis

If you own a copy of *Panzer Dragoon II Zwei* and *Panzer Dragoon Saga*, there are some cool things you can do with your saved game files as follows:

- If there is a saved game of Zweii in your Saturn's backup memory, you will start off *Saga* with one hundred Dyne for every hour you clocked in playing Zweii; e.g. if you've played Zweii for five hours, you'll start *Saga* with 500 Dyne.

- If there is a saved game of Zweii in your Saturn's backup memory, you will be able to obtain a music box from the girl outside Valman's place in the Holy District; just keep talking to her. You'll see the music box near your backpack when you're in the camp. Access it to hear the theme from Zweii.

- Load up any of the four *Saga* discs. Next, open the Saturn without turning it off and replace the *Saga* disc with your Zweii disc. When you load up Zweii,

you will see the opening movie of the first *Panzer Dragoon* game instead of the usual Zweii intro.

• If you have a saved game of *Saga* in your Saturn's backup memory, you will have access to the special "Panda's Box" cheats in the Options menu of Zweii.

Tekken 6

Publisher: Namco Bandai
In Stores: 4th Quarter 2009

There's a reason why *Tekken*, *Street Fighter*, *Virtua Fighter*, *Mortal Kombat* and *The King of Fighters* continue to thrive while *Toshinden*, *Eternal Champions* and *Killer Instinct* have long been abandoned: In fighting games, as in anything else, the cream rises to the top. Still proudly clinging to its arcade roots, *Tekken 6* will come home this fall with the largest character roster of any *Tekken* game to date. But unlike the '90s, when you would pray for a decent home version of your favorite coin-op beat-'em-up, today's arcade-to-home conversions are often better than the originals. *Tekken 6* will accomplish this feat with new characters, additional game modes and a deeper array of character customization options.

Shimano Xtreme Fishing

Publisher: Mastiff

MotorStorm: Arctic Edge

Publisher: Sony
In Stores: 4th Quarter 2009

The desert and island settings of the previous MotorStorm festivals were a cakewalk compared to the brutal Alaskan courses of *Arctic Edge*. To help you conquer the branching routes and multiple altitudes of the ice-covered tracks, two new vehicle types have been added to the six classes of the previous *MotorStorm* games: the Snowcat and Snow Machine. Both versions of the game offer multi-player options, but the PSP version delivers AdHoc wireless and online races for up to eight players, with global leaderboards to compare your racing skills with Motorstormers worldwide. The developer is UK-based BigBig Studios, maker of both *Pursuit Force* games for the PSP.

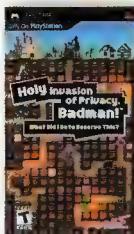

Dead Rising 2

Publisher: Capcom
In Stores: Possible in 2009

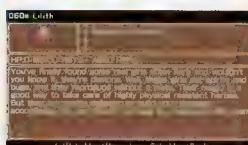

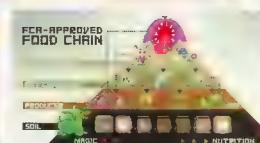

If you were Capcom and you wanted to select a development house to handle the sequel to *Dead Rising*, you couldn't have picked a less obvious candidate than Blue Castle Games, the Canadian developer of *The Bigs* and *MLB Front Office Manager*. And yet, the game already looks like a more-than-worthy sequel to the popular zombie extravaganza, with major contributions from several members of the Japanese *Dead Rising* development team (including producer Keiji Inafune). As the story goes, the zombie virus was not contained after the Willamette shopping mall incident, and after several years, an outbreak occurs in the gambling paradise known as Fortune City. Tens of thousands of zombies run rampant...and they're not looking for buffet comps, so you'll have to bash in their skulls with roulette wheels, bass guitars and whatever else you can get your hands on.

Holy Invasion of Privacy, Badman! What Did I Do to Deserve This?

Publisher: NIS
In Stores: July

A cult hit in Japan, *Yuusha no Kuse ni Namaikida* is coming to the U.S. with this ridiculously long title. The gameplay is something like a cross between *SimAnt* and *Tecmo's Deception*, with a little bit of *Dragon Quest* for flavoring. You must create underground caverns and populate them in such a way as to prevent heroic characters from capturing the devilish "boss" character Badman. Digging creates nutrients and releases life forms that can evolve into various types of monsters, so you must build up an elaborate underground ecosystem of creatures who will breed and feed off each other while defending Badman's lair from intruders. Heroes who use magic will infuse the surrounding soil with special powers, which you can harvest to create more powerful legions and more elaborate defense mechanisms.

Indiana Jones and the Staff of Kings

Publisher: LucasArts

Available Now

The lost ark having been sufficiently ravaged, adventurer/archaeologist Indiana Jones now sets his sights on another religious artifact. Set in 1939, this new adventure follows Indy from San Francisco to Panama as he dodges snakes and avoids bad dates in his quest to cover the Staff of Moses before his nemesis, Magnus Völker, can get him to it. The Wii version lets you use the Wii Remote to control Indy's famous bullwhip, while the DS version has you crack the whip with stylus control. Two players can team up to face challenges in several game modes, and among the unlockable features is a competitive mode in which four players can face off in biplane or tank combat. The Wii version also includes the classic PC adventure game *Indiana Jones and the Fate of Atlantis* as an unlockable reward.

GhostbustersTM THE VIDEO GAME

Ghostbusters: The Video Game

Publisher: Atari
Available Now

There have been many *Ghostbusters* video games in the past, but this one has such a strong pedigree that it almost feels like a new movie in the series. Harold Ramis, Dan Aykroyd, Ernie Hudson and Bill Murray may not be willing to strap on Proton Packs and run around in front of cameras like they did 25 years ago, but all four of them have signed on to re-create their roles as Spengler, Stantz, Zeddemore and Venkman through voice acting. What's more, Ramis and Aykroyd—who authored the screenplays of both *Ghostbusters* movies—have written the game's script, incorporating ideas that never made it into the films. As a member of the Ghostbusters team of paranormal exterminators, you'll use a variety of familiar and newly-designed gadgets to rid Manhattan of the supernatural phantasms and demons who have overrun the city. Most versions of the game offer a competitive multiplayer mode where players compete to capture ghosts, but the Wii version also allows you to play through the entire story in split-screen two-player mode.

G.I. Joe: The Rise of Cobra

Publisher: Electronic Arts
In Stores: August

It's crazy that a major toy/TV show/comic book franchise can basically be ignored by video game publishers for 17 years...and that the drought might have gone on even longer if there hadn't been a major motion picture in the works. But that's what happened to G.I. Joe; there hasn't been a new Joe game since 1992. With *The Rise of Cobra*, players can take control of 12 different G.I. Joe characters in a continuation of the movie adventure. What's more, two players can team up in single-screen combat mode and yell "Go, Joe!" as they battle the evil Cobra organization and its dastardly plans for the continuation of group health coverage that might otherwise be terminated.

Mario & Sonic at the Olympic Winter Games

Publisher: Sega
In Stores: 4th Quarter 2009

While it's no longer shocking to see the mascots of both Nintendo and Sega standing side-by-side, *Mario & Sonic at the Olympic Winter Games*

will add some new characters to keep fans guessing. Set in Vancouver, the site of the official 2010 Olympic Winter Games,

this follow-up to one of 2007's biggest hits is being developed by Sega under the guidance of Mario and Zelda creator Shigeru Miyamoto. The line-up will include alpine skiing, speed skating, bobsleigh and other events based on the real-life competition. Some events can be played in cooperative multiplayer mode (both versions), and some can be played using the Wii Balance Board (Wii version only, obviously).

Texas Cheat 'Em

Publisher: D3
Available Now

Developed by Texas Hold 'Em Games (Stubbs the Zombie, Hail to the Chimp) offers a twist on traditional Texas Hold 'Em games. In Texas-Cheat 'Em, players are given the ability to "cheat" if you're not satisfied with your hand. It includes more than 100 different poker variants, plus a host of other card games like Rummy, Blackjack, and more. The game is available for download through Xbox Live Arcade and the PlayStation Store, and all versions include a free trial period.

Transformers: Revenge of the Fallen

Publisher: Activision
In Stores: 4th Quarter 2009

Activision has drafted several different developers to create games based on the sequel to the successful *Transformers* movie. Luxoflux (*Vigilante 8*) will handle the flagship Xbox 360 and PlayStation 3 versions, with Krome Studios (*Ty the Tasmanian Tiger*) developing the Wii and PS2 games. Vicarious Visions (*Guitar Hero: On Tour*) is creating separate Autobots and Decepticons editions for the Nintendo DS, while the PSP version comes from Savage Entertainment, developer of the previous *Transformers* game for the PSP. All editions of *Revenge of the Fallen* are expected to include a wide variety of playable characters and game locations set in various places around the world, and many of them will also offer online multiplayer options.

Silent Hill: Shattered Memories

Publisher Konami
In Stores: 4th Quarter 2009

Just as Nintendo planned, there are a lot of Wii owners who never played earlier systems like the PlayStation. So it makes sense that Konami would produce a Wii remake of *Silent Hill*, because there's a whole new audience out there that has never even heard of this cornerstone of the "survival horror" genre. Even if you've played the original, you'll find that *Shattered Memories* offers a very different experience. You still play as Harry Mason, and you're still searching for your missing daughter in the freaky, fright-filled town of Silent Hill. But now you can use the Wii Remote as a cell phone with the ability to communicate with other characters, map your location, take photos and more. The Wiimote also controls Harry's flashlight, so you can simply point it to illuminate dark corners—if you've got the guts to face the terrors that may be revealed there. You can't do this with the PS2 and PSP versions, of course, but they will include all of the other new features of the Wii version, including an all-new soundtrack by Akira Yamaoka and new escape/evasion options that replace the combat sequences from the original.

Duke Nukem: Critical Mass

Publisher: Deep Silver

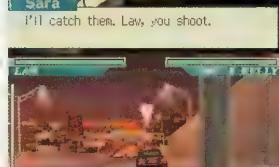

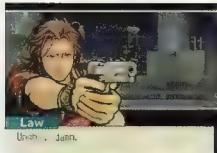

In Stores: September

Deep Silver and Apogee have announced three new *Duke Nukem* games for the DS and PSP. The first is *Duke Nukem: Critical Mass*, which offers first- and third-person action as well as side-scrolling areas. It's the first chapter in a new "Duke Nukem Trilogy," and will eventually be followed by *Duke Nukem: Chain Reaction* and *Duke Nukem: Proving Grounds*. No release dates are available for the latter two games...but if you've been sitting around and waiting for *Duke Nukem Forever* to be released, this should come as no surprise. Just be happy that new *Duke* games are still being produced!

DUKE NUKEM CRITICAL MASS

Miami Law

Publisher: Hudson

Available Now

EDS

Miami Law is an action/adventure game that plays like *Phoenix Wright*, but also includes action sequences similar to *Virtua Cop* and *Chase H.Q.*. You can choose to play various parts of the game as either the hot-headed Miami police officer Law Martin or his more cerebral partner, FBI agent Sara Starling. As Law, you're likely to find yourself behind the wheel of a police cruiser in hot pursuit of a fleeing felon or shooting from behind the cover of a crate in a warehouse gun battle. As Sara, you'll be dusting for fingerprints at a crime scene or analyzing evidence to interpret clues. The story progresses in episodes like a TV cop show, with minigame-style interludes where you defuse bombs or study video surveillance footage. The game was developed by Hudson in Japan and localized by Gaijinworks, a new company headed by Working Designs founder Victor Ireland.

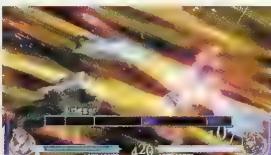

Dissidia Final Fantasy

Publisher: Square Enix

In Stores: 3rd Quarter 2009

Dissidia: Final Fantasy is a fast-paced fighter featuring the heroes and villains from the first ten *Final Fantasy* games. Many of these characters haven't been seen since the days of the NES and Super NES, and all of them sport updated character designs by Tetsuya Nomura, lead character designer for all of the recent *Final Fantasy* titles. With gameplay reminiscent of *Dragon Ball Z: Budokai Tenkaichi* and its sequels, players can pit fan favorites like Cloud, Tidus and Squall against baddies like Kefka and Sephiroth. Every character has access to customizable equipment and alternate costumes, as well as limit breaks and over 40 summons. The game also features multiplayer options and a lengthy story mode with RPG elements.

Call of Juarez: Bound in Blood

Publisher: Ubisoft
Available Now

Ray McCall was a preacher in the original *Call of Juarez*, but this prequel focuses on his earlier career as a young gunslinger, prowling the Old West with his ruthless brother, Thomas. Set in the 1800s, it's a first-person shooter that follows the McCalls as they face off against renegade natives, greedy bandits and corrupt military figures. Ray and Thomas have different gameplay styles, so you'll have to choose the brother with the weapons and abilities that are most appropriate for each gunfight. The online multiplayer modes have a unique "bounty" feature that gives you bonus points when you take out the most wanted men...but doing so also increases the bounty on your own head, so watch your back!

THE LEGENDARY
STARFY

North American gamers only know Starfy as an assist trophy in *Super Smash Bros. Brawl* (where he's called "Starfy"). But in Japan, *The Legendary Starfy* is actually the fifth game in a series that originated on the Game Boy Advance seven years ago. The *Starfy* games are among the few titles that are openly credited to TOSE, a Japanese game development house that has anonymously developed hundreds of popular titles dating back to the *Bases Loaded* series on the NES. Starfy is a happy little starfish who can walk on land and glide through the air, but spends most of his time swimming through the undersea kingdom of Pufftop. He can also wear different costumes to acquire special abilities, and some levels allow you to team up with a second player for co-op adventuring via DS download play.

Ninja Gaiden Sigma 2

Publisher: Tecmo
In Stores: 4th Quarter 2009

With his departure from the company in 2008, producer Tomonobu Itagaki left many fans wondering if Tecmo would sink or swim without the face of the *Ninja Gaiden* franchise and his brooding rock star persona. Fortunately, Team Ninja is alive and well, having successfully remade the original Xbox game as *Ninja Gaiden Sigma* for the PlayStation 3. Next up is *Sigma 2*, a PS3 upgrade of the Xbox 360 sequel *Ninja Gaiden II*. The most notable additions are an online co-op mode (for special missions, not the main game levels) and two new playable characters: Ayane (from the *Dead or Alive* series) and Momiji (from *Ninja Gaiden: Dragon Sword*). New enemies and bosses have also been added, along with a variety of technical upgrades like graphic tweaks and altered camera positions.

Red Faction: Guerrilla

Publisher: THQ
Available Now

While the first two *Red Faction* games were first-person shooters, Guerilla is a third-person action title that takes place 50 years after the events of the first game. The protagonist is Alec Mason, a miner who joins the resistance against the Earth Defense Force and its oppressive rule over the people who have colonized the planet Mars. Developer Volition has harnessed the power of the Xbox 360 and PS3 to implement a new version of its Geo-Mod engine, which offers unprecedented amounts of environment modification. In layman's terms, that means you can blow up bridges, tunnel through mountains, blast open the sides of buildings and rig vehicles with explosives before sending them into enemy strongholds, all with extremely realistic physics and gravity effects.

a boy and his blob

Publisher: Majesco
In Stores: 4th Quarter 2009

Wii

The NES title *A Boy and His Blob* was the last all-original console game designed by David Crane, arguably the most talented and best known game creator of the early 1980s. By the end of that decade, both his fame and his body of work were being eclipsed by teams of designers on a continent 5,500 miles across the Pacific Ocean. But unlike *Pitfall!* and most of Crane's other works, *A Boy and His Blob* had a very clever play mechanic which has not been remixed to death by generations of imitators. The blob is a benevolent alien who can transform into a wide variety of useful tools, provided the boy knows which jelly bean triggers each transformation. Feeding the blob a licorice jelly bean causes him to transform into a ladder, tangerine changes him into a trampoline, and so on. A DS version of the game was announced but never released, so this Wii remake will be a long-overdue treat. By adding hand-drawn animation, charming puzzles, 15 new jelly bean transformations and an all-lowercase title, developer WayForward (*Shantae, Contra 4*) is giving Crane's game an enchanting, polished makeover.

G-Force

Publisher: Disney
In Stores: July

Wii

You really wouldn't need an excuse to make a video game about secret agent guinea pigs and a surveillance commando household who are armed with high-tech gadgets and have been specially trained for a dangerous secret mission. (We know what you're thinking: "You had me at secret agent guinea pigs.") But the fact that Disney has made a movie with this exact plot has given Disney Interactive the perfect opportunity to make it happen on all the current game consoles. Playing as various members of G-Force, you get to take on a robot army of evil household appliances and see how the world looks from the perspective of a domesticated rodent. Several of the voice actors from the movie have also performed dialogue for the game, including Sam Rockwell (as G-Force leader Darwin), Jon Favreau (as Hurley) and Bill Nighy (as Leonard Saber).

DO YOU KNOW THE SECRET OF THE

MYSTERY CODES?

Scattered throughout our *Tips* pages are "Mystery Codes" that are known to work, but we're not sure what effect they have in the game in question. Note: These codes may not have any effect at all; it's possible that they were left in the games inadvertently or that their effects were intentionally disabled before the games were released. However, we invite you to prove otherwise!
